Fax: +49(0)511 8113541

Directions to the workshop

By public transport:

From the airport (HAJ Langenhagen) via
commuter train line 5 (S-Bahn 5), 13 minutes
to the Main Station (Hauptbahnhof, Hbf).

From the Main Station take one of the
following tram lines (underground)

- Line 1 toward Laatzen/Sarstedt or
- Line 2 toward Rethen or
- Line 8 toward Fairgrounds/Messe

Exit after two stops at Aegidientorplatz

Transfer to one of the following tram lines:

- Line 4 toward Roderbruch or
- Line 5 toward Kirchrode or
- Line 6 toward Congress Centre or
- Line 16 (Expo/Ost)

Depart at Braunschweiger Platz, enter the
campus, follow signs to Apothekenhörsaal.

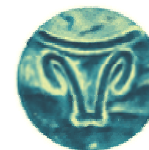

By car (maps available at <http://www.tiho-hannover.de/allgemein/anreise/karten.htm>):

From the North/West/East:

At the autobahn interchange "Hannover-
Kirchhorst" exit onto the A37/B3
(Messeschnellweg) in the direction of the
fairgrounds (Messe); at the exit "Pferdeturm",
turn right, follow signs "Tierärztliche
Hochschule" to campus.

From the South:

At the autobahn A7 interchange "Hannover-
Süd" exit onto the A37/B6 (Messeschnellweg);
exit at "Bult", turn left, proceed ca. 2 km,
follow signs "Tierärztliche Hochschule" to
campus.

Sustainable Animal Production International Workshop 9

Safeguarding Animal Health in Global Trade

October 5 - 6, 2000

Hannover, Germany

School of Veterinary Medicine Hannover

The Workshop is supported by
The European Commission
FEDESA
BMELF

Vision Statement

The purpose of this workshop is to highlight and review the present situation and identify new challenges in global trade with animals and animal products and to develop outlook and perspectives as part of a vision of sustainable animal production for the 21st century. This workshop will be of interest not only to farmers, veterinarians, livestock producers and representatives of related industries but also to agronomists, environmentalists and politicians.

Volker Moennig, local coordinator
Alejandro Thiermann, international chair

This workshop is one of a series conducted from June to October 2000 by a group of scientists from four agricultural and veterinary research institutions in Northern Germany as part of a project to develop a vision of sustainable animal production based on scientific fact. It was preceded by a corresponding forum in the virtual conference www.agriculture.de (ongoing since October 1999). Summaries for readers of German will be published at www.landwirtschaft.de

The results of this workshop and the others will be summarized and presented to the public in the plenary session to be held in Hannover on October 16, 2000. (Registration via the Project Coordinating Office.)

The Research Consortium Sustainable Animal Production is grateful to the European Commission, FEDESA and the BMELF for their support of this and the other workshops in the series.

Workshop Programme

Thursday, October 5th (13:00-18:00)

Afternoon Session

Chair: W. Zwingmann, Federal Ministry of Agriculture, Germany

13:00-13:30 Introduction (J. Westergaard, European Commission)

I. The Current Trade Environment

13:30-14:15 Current Rules and Future Challenges (A. Thiermann, United States Department of Agriculture)
